

## WHAT WE OFFER

We cover the full range of orthopaedic and trauma surgery treatments, as our expertise covers all aspects of the musculoskeletal system.

**In particular, we treat injuries with all their related effects and wear-and-tear related conditions in shoulders, elbows, hands, wrists, hips, knees, feet and ankles.**

We handle minor invasive surgery, treatment of infections, early intervention, accident related conditions, trauma surgery and revision surgery.

We specialize in the **treatment of shoulders, elbows and hands.**

For example shoulder injuries, arthritis of the shoulder, torn tendons of the shoulder (rotator cuff tears), shoulder arthroscopy, shoulder instability, tennis elbow, carpal tunnel syndrome etc.

We provide expert **treatments of hips, knees, ankles and feet:**

For example knee replacements, knee arthroscopy, meniscus and cruciate ligament surgery, ankle operations, ankle ligament reconstructions, foot and ankle fusion surgery, bunion and hammer toe operations and all other foot deformities etc.

**We treat acute injuries and bone fractures in all extremities and joints,** especially sports injuries and accident related conditions.

## „Life is movement“

Aristoteles (384–322 BC) Greek philosopher

**Medical consultants and experienced and trained medical staff attend to your personal care and well-being.**

**Our practice combines medical expertise from a wide network of physicians, including the Swiss Arthros Center Zug, the Swiss Arthros Clinic Zürich and other partners.**

## CURRICULUM VITAE OF DR OETIKER

Rolf F. Oetiker MD is a consultant and board certified physician of orthopaedic surgery and traumatology of the musculoskeletal system.

He has many years of specialist medical and surgical experience, and his qualifications in orthopaedic surgery and traumatology of the musculoskeletal system have been earned at various well-respected centres in Switzerland and by attendance of numerous training and extension courses in Europe and the US. The stages of his career include:

**2009** Founder of the Swiss Arthros Center Zug – a centre of excellence for orthopaedic surgery in the town of Zug together with Dr. S. Czaja

**2004** Founder of the Orthozentrum Cham, an orthopaedic surgery practice in Cham

**2002** Affiliated and Consulting Physician for orthopaedic surgery and traumatology of the musculoskeletal system at Hirslanden Andreasklinik Cham, Zug

**2000–2002** Senior Physician at the Department of orthopaedic surgery and traumatology, Cantonal Hospital Chur

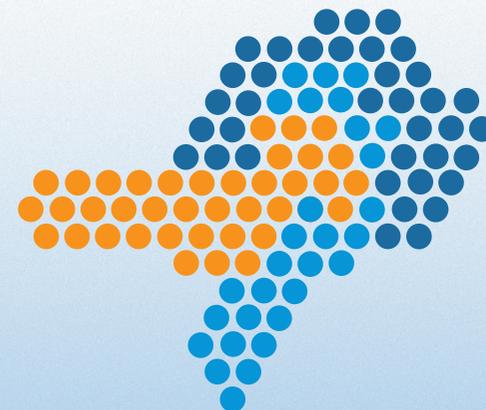

**1998–2000** Orthopaedic surgeon at the Schulthess Klinik Zürich with training in upper extremities, lower extremities and special podiatric surgery

**1996–1997** Practicing surgeon at the clinic for orthopaedic surgery, traumatology and reconstructive surgery, Cantonal Hospital Bruderholz, Basel

**1987–1996** Medical training in general surgery and orthopaedics at various clinics and the University Hospital of Basel

**Our practice team (left to right):** Dr Martin Schumann MD, Mrs Stephanie Joller (Medical Assistant), Mrs Sibylle Truttmann (Medical Assistant), Dr Rolf F. Oetiker MD, Mrs Nadine Arnold (Medical Assistant), Mrs Heidi Köppli (Medical Secretary)

## OUR COMMITMENT TO YOU

**Continuous further education** is essential in our profession. And here, Swiss orthopaedic surgeons lead the way. Under their regulations regarding further training, they are fully committed to structured, recognised and examined advanced training on the American model (CME – Continuing Medical Education) undertaken annually, in order to stay on the cutting edge of the latest scientific findings.

### Seamless care from practice to hospital

It is our mission to give our patients continuous personal care in all phases of life and over the entire course of their medical treatment, both with regard to outpatient treatments at our clinic and to any hospital stays. In other words, the affiliated doctor at the hospital will actually be your own private doctor.

### In case of absence, an equivalent replacement

For elective operations, your affiliated doctor guarantees his personal involvement. In case of emergencies, or when your doctor may be on vacation or military leave a colleague with equivalent experience will take over.

### Respect for your needs

When planning and performing medical treatment, your personal, professional and social circumstances are always taken into account.

## OUR PRACTICE – OUR CLINICS

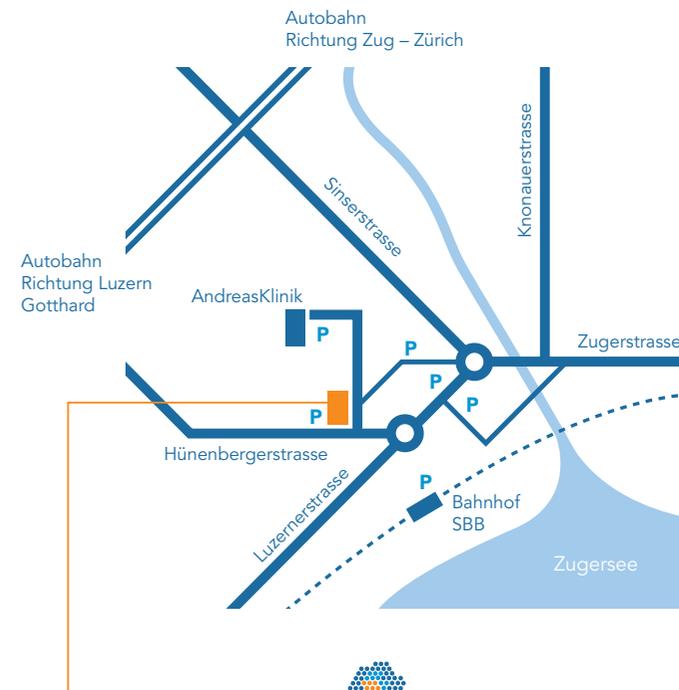

Our team works from a modern, wheelchair-friendly practice close to the Hirslanden Andreasklinik in Cham. **Patient parking spaces in our underground carpark, are provided for your convenience with lift access to the practice.** We use the **latest instruments and equipment** to provide you with comprehensive services, from digital X-ray and shockwave therapy to smaller operations on our premises.

We are specialists in the **treatment of degenerative and inflammatory conditions and injuries to the musculoskeletal system.** We offer our patients **specialist medical examinations and consultations** and subsequent **treatments.** In particular these include operations carried out in hospital at our referral. **Interventions requiring hospitalisation** are performed in **various private clinics**, the choice of which is decided with you. Thanks to our network we can quickly provide solutions for patients in all insurance classes and expedite their inpatient treatment without long waiting times. Thus you benefit from the advantages of the affiliated doctor system together with individual patient care and rapid access to several clinics.
